Full-house Dog Adoption Event

17 dogs found new homes in 2 days

During the month of March, the Animal Shelter became overcrowded with dogs due to the combination of a slowdown in adoptions during the previous six months and a recent surge in the number of large dogs entering the Shelter as strays.

To help "clear the kennels" and find homes for these deserving canines, Friends of the Animal Shelter held the first ever reduced-fee dog adoption event at the Shelter on Saturday and Sunday, April 2 and 3. Adoption fees for large dogs were reduced from \$150 to \$50, with Friends of the Animal Shelter paying \$100 per dog and providing lots of volunteers to help with making sure the dogs found perfect fur-ever homes.

Cars started arriving at 11:15 AM on Saturday, and by 4:00 PM, 9 dogs and 2 puppies had left with their new owners.

Hannah

On Sunday, 6 more dogs found new homes, making it a total of 17 dogs adopted in just 2 days.

"We were so impressed with the number and quality of potential adopters who sincerely wanted to help the animals," said event organizer, Barbara Talbert. "The number of adoptions surpassed our expectations and gave us the room needed to move more dogs into adoption."

Unfortunately, the decrease in adoptions is a recent trend being experienced by other animal shelters across the country. The kennels are already filling up with new dogs looking for homes and the Shelter can still use your help.

**To view adoptable animals,
visit fotas.org/adopt**

Friends of the Animal Shelter supports the programs of the Jackson County Animal Shelter in Phoenix, Oregon.

We provide hundreds of volunteers to help increase pet adoptions and improve the quality of life for Shelter animals while waiting for their new forever homes.

Because preventing unplanned litters is the first step to reducing pet overpopulation, all Shelter animals are spayed/neutered before adoption.

And to ensure animals get a second chance, the Jackson County Animal Shelter and Friends of the Animal Shelter fund preventative and rehabilitative medical treatments.

All of this is in service to our vision that all adoptable animals in Jackson County find a loving home. And you can help!

Welcome New Staff

Friends of the Animal Shelter's new team members

Sky Loos, Friends of the Animal Shelter Executive Director

We are so very happy to introduce you to Sky Loos, the new Friends of the Animal Shelter Executive Director. Sky started in mid-January and hit the ground running.

Sky and her family relocated to the Rogue Valley in 2008 by way of Sun Valley, Idaho. She lives in Ashland with her husband, 16-year-old daughter, three dogs and two cats.

Shortly after arriving, she started working as the Southern Oregon Humane Society Education and Community Outreach Director. During her tenure there, she developed humane education programs that reached hundreds of children across Southern Oregon.

Sky then moved to Britt Festivals in the Development department, and was promoted to Director of Operations. Her proudest accomplishment was spearheading the Britt Orchestra at Crater Lake performances.

In the fall of 2021, Sky was asked to step in as Interim Executive Director for the Ashland Independent Film Festival, focusing on fundraising and staff organization.

A lifelong animal fanatic, Sky jumped at the opportunity to serve as our Executive Director. "Friends of the Animal Shelter is an organization I've always admired and wanted to be a part of. Having a career dedicated to improving the welfare of dogs and cats is a lifelong dream. I am thrilled to be a part of the FOTAS team!"

Lisa Greene, Volunteer Services Manager

Friends of the Animal Shelter is thrilled to announce that we have hired Lisa Greene as our new Volunteer Services Manager! Lisa will be managing recruitment and retention of our hundreds of valuable volunteers.

Lisa is a long-time Rogue Valley resident whose extended family has lived in the area since the 1950s. After she obtained her degree in Business and Retail Marketing, Lisa embarked on her career with a few select Ashland organizations and retail stores, quickly finding her niche wherever she landed.

After more than 16 years at a prominent area establishment, Lisa decided to try something new and went to work for a large, national event company in the Rogue Valley. After COVID-19 forced the permanent closing of that business, she decided to embark on a non-profit journey, wanting to give something back to her community.

Lisa is happily married to her college sweetheart, Aaron, and together they enjoy their time with their daughter Mackenna, especially after she moved back home during the pandemic. Lisa enjoys photography and has begun diving back into watercolor painting. Lisa enjoys event planning for family and friends, spending as much time with them as possible.

Lisa is excited to be joining FOTAS to support our dedicated volunteers.

2021 Annual Statistics

Working Together - Friends of the Animal Shelter and the Jackson County Animal Shelter

To keep our supporters informed about what is happening at the Shelter, a new recurring feature of this newsletter will be a brief summary of statistics – essentially a “snapshot” in time. This one describes the activities that took place in 2021.

SERVICE PROVIDED	DOGS	PUPPIES	CATS	KITTENS	TOTALS
Provided temporary shelter for	1,207	74	343	311	1,935
Returned to their owners	656	15	21	0	692
Provided temporary foster homes for	92	35	15	236	378
Found new homes (adopted)	279	31	183	271	764
Transferred to other animal shelters	94	17	5	3	119
Spayed/Neutered Shelter animals	232		394		626
Street Dog Project	Spayed/Neutered 127 animals				
Working Cats Program	Placed 110 cats onto 42 different properties				

In Memory of Jan Spindler Volunteer Extraordinaire

It is with much sadness that we say goodbye to our dear friend and incredible volunteer, Jan Spindler, who passed away in March after a prolonged illness.

Jan's constant smile and unwavering willingness to help with anything Friends of the Animal Shelter and the Shelter did to improve the welfare of animals under our care is her lasting legacy.

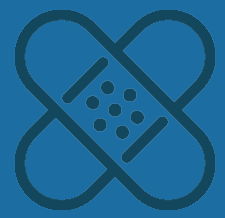

Although, Jan's focus with Friends of the Animal Shelter was on cats, she was a lover of all things furry. She is greatly missed, and we are forever grateful she graced us with her presence for so many years.

Donate in Jan's memory at fotas.org/kitten-shower

Spay/Neuter Trailer UPDATE

Speeding up services and adoptions

Volunteer HIGHLIGHT

Jenni Brusca, Friend to Felines

We'd like to introduce you to Jennifer (Jenni) Brusca. Cat volunteer extraordinaire!

During the week, Jenni is a full-time nurse, but come Sunday afternoon, she can be found joyously volunteering in the cat rooms at the Jackson County Animal Shelter.

Jenni attended a Friends of the Animal Shelter volunteer orientation in September 2016, and was hooked. Interestingly, her first day "on the job" happened to take place during the annual Catstravaganza fee-waived adoption event, when potential adopters lined up outside the Shelter waiting to give deserving cats new homes. She very quickly learned about the cat adoption process and has taken on a variety of roles at the Shelter ever since.

Jenni chose to be trained as an Adoption Counselor, a fulfilling role because she "loves finding just the right home for the kitties." In addition to volunteering in the Shelter, Jenni helps care for ringworm foster kittens at Puck's Place, and fosters ringworm kittens at her home as well, which is both a challenge and a blessing.

Jenni writes the Sunday Mews, an email that is sent daily to inform cat room volunteers about adoptions and special needs of kitties waiting to be adopted. And, she is responsible for promoting kittens and cats for the FOTAS Facebook page, including writing kitten and cat descriptions, adoption stories, and special interest posts.

If that isn't enough, Jenni serves on the Program Advisory and Publicity committees, and teaches the Cat 101 and Adoption Counseling classes for new volunteers. Jenni explains, "I love each of these roles, because they allow me to use my unique skills as a creative writer, educator, nurse, and supporter of animal rights."

Jenni came to the Rogue Valley in 1991 to begin her nursing career. She built a house in Talent that she shares with six inside cats, three of which she fostered, and one community cat that lives outside. When she's not working or volunteering, Jenni enjoys being outdoors, kayaking on a mountain lake, hiking on local trails, and tending to her garden.

Jenni's heart extends to other charitable causes. "I sponsor three children around the world, two wolves at a sanctuary

Jenni, socializing with Socks at the Shelter

in Washington State, two bats in Australia, a cat in Thailand, three dogs on the east coast, and a donkey at Equamore, a local horse sanctuary. I am also a world traveler and successfully summited Mt. Kilimanjaro in Tanzania, Africa."

Jenni is a gift to Friends of the Animal Shelter, giving her time and heart with a lovely smile and hearty laugh. She generously creates a better place for her feline friends and others. We are thrilled to thank her publicly for her service.

If you would like to learn how you can fill your heart with volunteering with Friends of the Animal Shelter, please visit **fotas.org/volunteer** to sign up for an orientation.

We are delighted to announce that our Volunteer Orientation meetings are back!

Attend one of our monthly Orientations to hear about current volunteer opportunities. Space is limited, so please let us know you'd like to participate by calling (541) 774-6651, or email us at fotas@fotas.org.

We'd love to meet you!

New Signage at the Shelter

Improving the visitor and volunteer experience

As we all know, the Jackson County Animal Shelter has been around for quite a while ... and, well, the signage was looking a bit worn out.

Over the past year, members of the ad hoc Sign Committee, Vicki Chamberlain, Barbara Talbert and Eliza Kauder, set out to create an improved signage system at the Shelter. The goal was to provide clearer directions to the main entrance of the Shelter and to improve the visitor's experience. The end result is a more professional and cohesive look.

First and foremost, the sign on Hwy 99 was badly faded and barely readable after years of multiple changes. Completely replacing the sign was not an option per zoning regulations, so a facelift was designed and installed. New easily changeable banners have also been added to the bottom of the sign highlighting special events and messages.

Improved Way-finding

Finding your way into the Shelter is a bit challenging as well, as the Shelter sits behind a county maintenance building and is not visible from the road. The improved "way-finding" signage now helps direct the public to the office and kennels. And, offers messages to encourage visitors to adopt, foster, volunteer and donate.

Recognizing staff and volunteers

And, importantly, we wanted to make sure that the Shelter staff and Friends of the Animal Shelter volunteers know how much they are appreciated by thanking them on large signs in the staff/volunteer parking lot.

Once in the visitor parking lot, a new Welcome sign clearly directs the public to the main entrance, and new interior signage helps welcome visitors while still providing safety and care tips for visitors.

Providing tools for our organization

In addition to improving the Shelter signage, new Friends of the Animal Shelter materials were also produced to help promote our organization. In total, over 52 signs, banners, sandwich boards and event materials were designed for use at the Shelter and future outreach events.

Kitten season has begun!

**It's
Raining
Kittens!**

It's time for our annual ORPHANED KITTENS SHOWER

You're invited to contribute to the Friends of the Animal Shelter annual Orphaned Kittens Shower to purchase supplies that support the needs of the HUNDREDS of vulnerable foster kittens and our nurturing Foster Program volunteers who will care for them. As you can imagine, supply chain challenges are showing up in higher prices!

And, we need more Foster Families! For more information, visit fotas.org/foster.

MEDICAL CARE: Help cover the costs of medications and medical care. Lots of kittens come in with medical needs, like upper respiratory and eye infections. Most of these are easily treated, but we need to provide the medications.

PREVENTION: It's amazing how fast kitties can reproduce, starting at only 4 months of age! Your donation will support our spay/neuter-before-adoption efforts, most of which are now done in the Friends of the Animal Shelter Spay/Neuter Suite (see page 5). Help us "flatten the curve" of unplanned litters.

NURISHMENT AND SUPPLEMENTS: Boy, can these little furballs eat! We purchase kitten milk-replacement formula, high-calorie foods specifically for young kittens, and nipples and bottles. Oh, and what goes

in, must come out, so we go through a lot of special lightly-clumping litter and shallow litter boxes.

HOUSING AND COMFORT: Along with washable beds, SnuggleSafe warming pads (\$30 each), and playpens (\$60 each), we are raising funds to purchase one more incubator (\$1,200) to keep our most vulnerable days-old kittens warm and safe. The two incubators we purchased two years ago have been invaluable in foster homes! Now we need one at the Shelter for incoming super-young kittens while they wait to go into foster care.

DONATE: We would prefer to purchase what we need in bulk, so please don't shop, donate!

- Online: fotas.org/kitten-shower
- Check: FOTAS Kitten Shower, PO Box 1013, Phoenix, OR 97535 - please write KITTEN SHOWER on the memo line.

If you have questions, please contact Eliza at fotas-scoop@charter.net or (541) 261-6206.

SPONSOR-A-KITTEN: On average, Friends of the Animal Shelter and the Shelter spend \$125 per kitten for medicine, food and spay/neuter. **Please consider sponsoring a kitten!**

Timber Finds His New Fur-ever Home

...and we're howling with glee

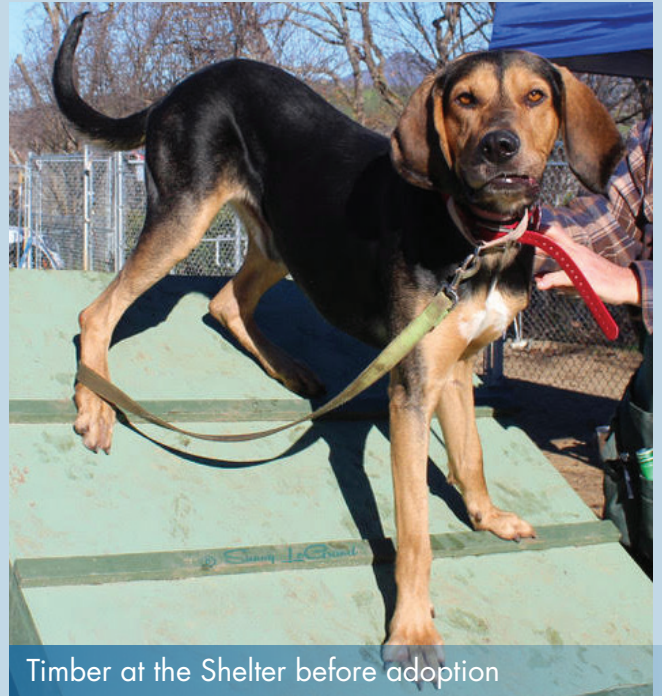

Timber, a 2-year-old handsome Treeing Walker hound, entered the Animal Shelter on December 6, 2021, as a stray found in Eagle Point, but his owner never came for him. He is a big boy at almost 80 pounds and he struggled in the Shelter, as many hounds do, showing his displeasure with being cooped up in his kennel by barking and howling.

In February, after a stressful couple of months, Timber found a wonderful home with a new family. Friends of the Animal Shelter volunteers cheered (and howled) with glee – and later appreciated the quieter adoption kennels area.

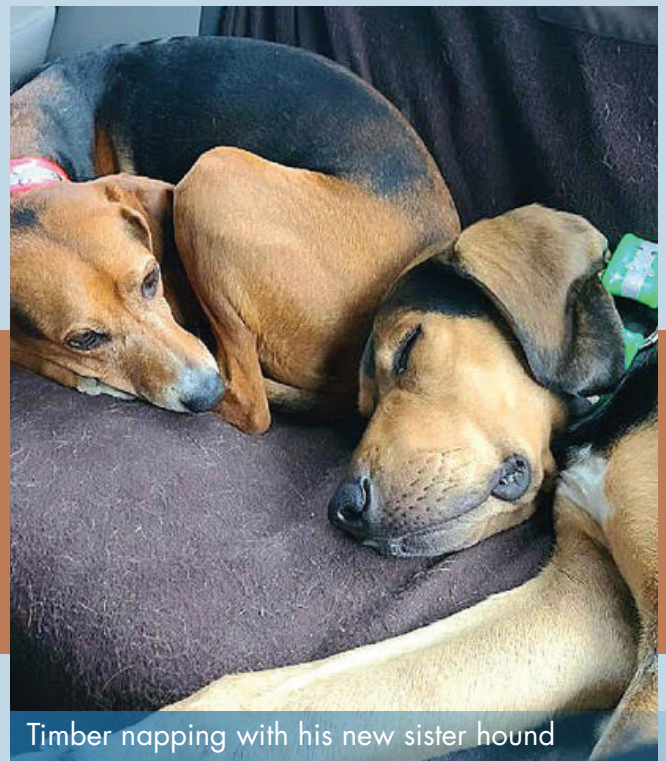

The family kept his name because they thought it fit him perfectly and they think he is just GREAT! Timber adapted immediately to his new home and has become well-traveled with trips to the woods, the beach, and the lake. Timber's new sister is another hound and they happily tire each other out with their energetic romps. He also has a "little sis," a Chihuahua/French bulldog mix named Stassi.

Timber is also fascinated with the family's cat, Ginger, and has nicely minded his manners in getting to know her. The family thinks they will be cuddling up for naps soon. So, it appears that Timber has left shelter life for good and is very happy in his new situation. Way to go, Timber!

Timber is a good example of a dog that would have benefitted from getting a break from the Shelter in a foster home. A little time away from the hub-bub of the kennels can help an anxious dog calm down, shortening the time it takes to be adopted.

Timber at the Shelter before adoption

Dutch Bros. Cares a Latté

Dutch Bros. Foundation recognizes outstanding “bro”istas by giving \$1,000 to the non-profit of their choice. The South Ashland franchise chose Friends of the Animal Shelter as the recipient and delivered a check to the Shelter on January 31st.

Not to be too silly, but we really appreciate their generosity ... a latté!

Pictured: Savannah (Broista) and Marissa (Manager) from Dutch Bros., and Sky Loos, Friends of the Animal Shelter Executive Director

Thank You, Betty White

On January 17, 2022, Friends of the Animal Shelter participated in a world-wide tribute to what would have been Betty White’s 100th birthday called the #BettyWhiteChallenge.

We decided to raise funds for our dedicated **Older Animals Medical Fund**. Many animals enter the Shelter with non-life-threatening medical needs, like dental work and minor corrective surgeries, that are not in the Shelter’s budget.

By taking care of their immediate needs, these deserving older pets are more easily adopted into new, loving homes.

Because of YOUR generosity, 370 donors contributed close to \$16,000. And three generous people became monthly donors to this fund as well!

Happy Birthday, Betty! Thank you for leaving a legacy of saving deserving animals.

Low-Cost Microchip Clinics ...are a hit

Facebook and NextDoor postings tell us how many animals go missing and are never returned to their owners. It's heartbreaking for both the family and the pets.

Hundreds of people are signing up and lining up to have their beloved pets injected with a small microchip that holds the owner's contact information. Friends of the Animal Shelter offers low-cost microchipping clinics to provide a permanent form of identification that can be scanned by any veterinarian or shelter if your pet wanders from home. They are tiny, about the size of a large grain of rice, and are passive. This means that they passively store a unique identification number and do not actively transmit any information. The microchip implanted in your pet has no battery and no internal power source, so it sits inertly in the dog until it is read by a microchip scanner. (This is not a GPS device – it does not track your pet.)

For only \$20, with no additional fees, you can greatly increase the chance that you'll see your furry family member again!

Make your appointments (cats and dogs – all ages) for the next Low-Cost Microchip Clinic on June 4, 2022:

- **Online:** [Calendly.com/jcas](https://calendly.com/jcas) (preferred)
- **Phone:** (541) 774-6654, Option 0

How WORKING CATS Help You

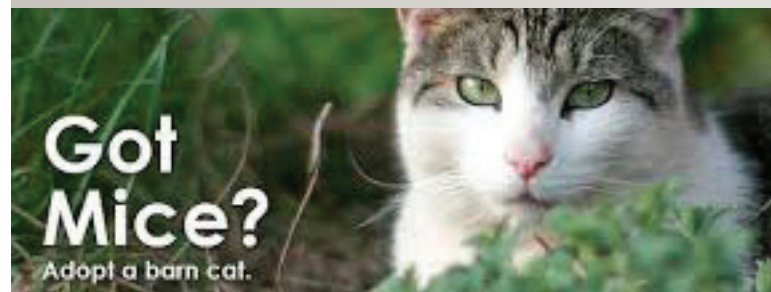

Have rodents? We have cats who need new homes that have been rescued from burned areas and construction zones where it is no longer safe to return. They can help keep those pesky vermin at bay! In fact, even the scent of a cat is enough to discourage rodents from inhabiting an area!

Our **Working Cats Program** provides up to 4 (but not less than 2) cats, depending on your situation. We set them up in large crates, which remain in place for 4 weeks while the cats get used to you and their new surroundings. And, we provide supplies and tips on how to successfully transition them to your property to do their job.

Working Cats love a good barn, but they can also take shelter in an outfitted storage shed, shop, garage, or any place that is safe, warm and quiet. We work with you to find the best spots on your property.

Please note, we are not accepting any new cats for relocation at this time. **We are seeking new homes.**
